01 PROFILE

When I'm not working on my personal projects, I'm probably watching coding videos or reading programming books. Programming has been a part of my life since high school, throughout my years, I was immersed in coding daily. While working as a freelancer for companies and clients, I was able to earn extra income and put my skills to the test. As someone who always strives to improve my projects by implementing better strategies to achieve the required result, learning various skills is one of my favorite activities. I am actively teaching people that want to get into programming. It's fun to do this and work with people.

02 EMPLOYMENT HISTORY

Jan 2022 — Mar 2022

Cape Town

Freelance Website Developer at Zero1 Creations

- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout. Fixed existing bugs and optimized the existing code. Added new pages and redesigned their logos to match their theme colors.

Aug 2022 — Sep 2022

Cape Town

Freelance Website Developer at Vela Trust

Converted their design into a fully functional and responsive design with highly optimized image loading speeds. I was given a photoshop design and my role was to convert it to an HTML, CSS, Bootstrap, and JavaScript website.

Jan 2020 — Present

Online
